MESSAGE

Welcome to the latest edition of our school newsletter! As we continue our journey at Darshan Vidyalaya, Bigas, I am thrilled to share our ongoing commitment to Spiritual Curriculum that fosters the holistic development of our students. As we believe that education goes beyond academic excellence. Our mission is to nurture well-rounded individuals who are not only intellectually proficient but also spiritually grounded and emotionally balanced. By integrating spiritual principles into our curriculum, we aim to create a generation of peacemakers who can positively influence the world around them. Our approach emphasizes character education, mindfulness, and a deep sense of community. Through various activities and programmes, we encourage our students to develop empathy, resilience, and a strong moral compass. These values are essential in cultivating a peaceful and harmonious environment both within and outside the school. Our students participate in meditation, community service projects, and workshops on conflict resolution. These experiences have not only enhanced their personal growth but have also strengthened their connections with each other and the broader community. We remain dedicated to providing an education that nurtures every aspect of their being – mind, body, and spirit.

Thank you for your continued support in making a place where holistic development and spiritual growth are at the fore-front of our educational experience.
